ACTA Press

Search Engine Optimization of Website

<http://www.actapress.com/>

ACTA Press is a technical publishing company that publishes all kinds of technical and scientific journals. Apart from this, ACTA Press also makes its presence felt internationally by making live all the conferences that it is a part of, on its site. ACTA Press is a secure and sure source of information for university students from all over the world. A large number of students refer to ACTA Press for research in their university and term papers.

The client wanted to increase the visibility of ACTA Press website on Search Engines against keywords with a very saturated market. The demand was to increase the presence of all the newly added papers and conferences. The existing papers also faced an indexing problem because for very precise searches related to particular papers, ACTA Press did not make it to the first page of Google.

A team of experienced Search Engine Optimization and Marketing experts at *ESOLPKOnline* analyzed the requirements of the website and devised a strategic plan which was later concluded within the website. The SEO team started with formulating promotional strategies keeping the client's requirement as well as characteristics of major search engines in mind. This was followed by implementation of the strategies in the form of both on-page and off-page optimization. To make the presence felt by the educational blogs, a blog that featured articles of the recent papers that were added to the ACTA Press website. In addition, promotion was carried out via social media and various sites now showed the ACTA Press logo.

Today, ACTA Press gets 30,000 visits just from Google searches alone. Along with a first page presence on Google against major keywords, ACTA Press continues to get traffic other sources as well.

Major Keywords:

- Control and Intelligent Systems
- International Journal of Computers and Applications
- International Journal of Power and Energy Systems
- International Journal of Modelling and Simulation
- International Journal of Robotics and Automation
- International Journal of Computational Bioscience
- International Journal of Alternative Energy

Secure Path Networks

Search Engine Optimization of Website

<http://www.securepathnetworks.com/>

Secure Path Networks provides services in reducing the telecommunications costs and the expenditures necessary to maintain a low telecom bill. The rise in expenses has led to office telecom bills to go sky high and offices are in the search of providers who can help them reduce their telecom bill. The presence of secure path networks on the internet was good, but it lacked the placing in the Search Engines search results. For particular keywords, that included the domain name, Secure Path Networks found the sacred first page position.

To increase the Search Engine visibility, *ESOLPKOnline* was contacted. After a careful evaluation and analysis of the trend in the searches and traffic flow, the SEO team started with formulating promotional strategies keeping the client's requirement as well as characteristics of major search engines in mind. This was followed by implementation of the strategies in the form of both on-page and off-page optimization.

Currently Secure Path Networks has improved its Alexa Ranking, and also finds its place among the first five pages for Google's results for generic keywords and is placed on the first and second pages for other keywords. Prior to SEO, Secure Path Networks did not have any mentionable ranking. Trends show that the current placing will further improve after OFF Page SEO implementation.

Major Keywords:

- telecom bill saving
- save on telecom bills
- reduce telecom bills
- reduce telecom cost
- save telecom expenses
- save telecommunication expenses
- telecom expense saving
- Telecom bill analysis
- telecom bill analysis auditing
- Telecom cost saving
- telecommunications expense reduction
- save on telecom cost
- cost saving audits
- telecom saving audits

Park City Independent

Search Engine Optimization of Website

<http://www.parkcityindependent.com/>

A large number of students from all over the world are now turning towards online education to complete their degree, rather than go to full time institutions. Online education helps save them time while they work to pay for expenses. A large number of online schools can be found, but to find one who is listed by the Ministry of Education and offers a variety of courses can prove to be a difficult task.

Park City Independent is an online school and is fast growing. Every year a large number of students sign up to complete their education and get the degree that they unwillingly had to leave due to some reason. As the number of students' enlisting increased, it was necessary for Park City Independent to have a decent placing in the Search Engines' search results.

The owner of Park City Independent went in favor of *ESOLPKOnline* to improve the placement and position of Park City Independent on the web. By using carefully guided techniques and strategies, the team of *ESOLPKOnline* is working on increasing the number of users to the site from Google searches.
