**Our Services**

## ENTERPRISE COLLABORATION PORTAL

Our fully customized intranet web portal provides an integrated platform to manage intranet, extranet, and internet applications across your organization.

### Highlights

- Document Management.
- Document review, transmitting, tracking and approval using workflows.
- Archive of documents and media.
- Complaint generation / surveys.

## FINANCIAL/PAYROLL/HR/PROCUREMENT

ESOLPK offers a complete line of Microsoft Dynamics GP products designed to help NGOs implement the right ERP strategy for their business.

### Highlights

- Maintain granular control over budget expenditures.
- Detailed picture of your financials.
- Streamline and automate the transfer of balances b/w funds.
- Manage and track grants, allocate funds and demonstrate accountability.
- Powerful tools automate workflow, requisitions and orders, receipting, invoice registration & matching and monitoring of internal supplies & stores management.

## MONITORING AND EVALUATION SYSTEM

Our web based application monitors and controls all the projects of non-profit organizations. M&E system can identify what works, what does not, and also evaluates the reasons why a certain process does not work.

### Highlights

- Activity monitoring and reporting.
- Budget allocation and financial monitoring.
- Evaluation of current projects and easy decision making.

## PROJECT MANAGEMENT AND TRACKING SYSTEM

This Solution can support a standard approach in initiating and managing small, medium and large projects and programs in an NGO. The solution enhances the ability to achieve a defined process.

### Highlights

- Resource capacity management and planning.
- Better Estimation of Project Delivery.
- Improved visibility and collaboration among project teams.

## DECISION-MAKING AND ANALYSIS SYSTEM

Our system supports a Non-profit organization's decision-making activities. It will help decision makers compile, manipulate and analyze useful information/reports from a large pool of raw information.

### Highlights

- Increases organizational control.
- Speeds up problem solving while promoting learning/training.
- Provides evidence in support of decision-making.
- Analyze weak areas.

## INFRASTRUCTURE MANAGEMENT

Infrastructure Management Solution is a helpdesk and asset management product that provides helpdesk agents and IT managers an integrated console to monitor and maintain the assets and IT requests generated from the users of the IT resources in an organization.

### Highlights

- Enable better decision making.
- Provide more efficiency in servicing customer demands.
- Maximum benefit to online users.
